SMITH'S KIDNEY TONIC—TRY IT.

THE TURKISH MISSION. OFFENSE TAKEN BY THE SULTAN AT ENGLAND'S ATTITUDE.

Two Dicta-rials to Sult the Cre-ent-Jewed the Kaiser. The new En-Eng-land and Russia—Foreign.

VARSA, Sept. 2.—The Wolff mission has not proved all smooth water. A little which occurred at the outset, of which a great deal more was made in diplomatic circles than circumstances warranted. The sultan did not like the tone of Sir Henry Drummond Wolff's speech, of which a copy, according to traditional usage, is always presented before the audience—owing to a too literal translation. England was made to appear as if she authoritatively demanded Turkey's assistance instead of applying to the sultan as supreme sovereign to help in restoring order in Egypt. The matter having been explained and due prominence having been accorded to the sultan's position in connection with Sir Henry.

In an interview the English envoy read a personal message from Queen Victoria to the sultan expressing the desire for peace and friendship. The queen refers in the message to a previous acquaintance with the sultan, and recalls the loyalty of the sultan's father as a friend and ally of England. She says she hopes to help the sultan to establish a government in Egypt conducive equally to the sultan's rights, the happiness of the Egyptians and the interests of England and the powers, and that this will be the basis of Sir H. D. Wolff's mission.

The sultan made a gracious reply, saying he valued the friendship of Queen Victoria and an alliance with England. He said that he would designate persons to confer with Sir H. D. Wolff respecting Egypt, and would grant a further audience on the subject. Sir Henry was highly pleased with the audience, and afterward visited the grand vizier and the minister of foreign affairs.

The Caroline Question. MADRID, Sept. 2.—The ministerial organs severely blame Gen. Salamanca for having returned his order to the German government and disapproval of the proposal to raise a public subscription for presenting him with a sword of honor. It seems that a curious demonstration took place at the Circo Vico, where the public insisted on the German colors being removed from the place, but as a set off against this, the lord Count von Solms-Sonnenwalde, the German minister, has conferred with King Alfonso at La Granja and assured him that his government has no objection to settling the Caroline question in a friendly manner.

A public meeting was held at Barcelona to protest against the seizure of the Caroline islands by Germany. The populace demanded that the Spanish flag should be hoisted on the government building, and came enraged when the authorities refused to comply with their demand. The main door of the building was set on fire by the mob and the military had to be called out to restore order.

Difference of Opinion. LONDON, Sept. 2.—The London morning papers daily differ in their criticisms on Miss Mary Anne's Rosalind, as performed on Stratford-on-Avon. One or two critics, notably Clement Scott, extravagantly praise her impersonation. Some slur her with faint commendation. Others are condemnatory. Mr. Henry Irving, the realistic Shakespearean actor of Manager Abbey.

The turnip, which as Audrey Mrs. Billington munched, was taken the day before to the garden of Anne Hathaway's cottage, while the dead dove brought on in the forest was the stuffed remains of the animal killed and presented to the theater by the owner of Charlotte park, whence the bird's alleged death occurred, and the keeper and the dogs ending the procession of the deer came from the demesne associated with the history of the poet's early life.

Alonso-Lorraine. PARIS, Sept. 2.—The Gazette Diplomatique says Prince Alonso-Lorraine, the new Spanish ambassador to France, will inaugurate his administration by a general decree, in virtue of which all French subjects resident at the Imperial residence will be compelled to evacuate German territory without delay. Count Zamoisky, son of the celebrated son of the same name and a naturalized Frenchman, has been expelled from Posen, where he holds extensive landed property. It is rumored that French reprisals are about to occur, Biarritz being mentioned as to expect certain Russian subjects. There is no doubt that French feeling is much aroused by the Spanish attitude toward Germany.

Mr. Healy on Ireland. DUBLIN, Sept. 2.—A large league meeting was held at Killarney. T. H. M. P. spoke on the last question. He advised the people to abstain from committing outrages, especially when they were the interests of landlords and policemen, and that they should not put all their trust in the Irish party in the house of commons, who were only sappers and miners. The army carried out into the tenancy camp. Mr. O'Brien, M. P., followed. He declared that the "variance" would never be lost and that landlords must be abolished.

England and Russia.

ST. PETERSBURG, Sept. 2.—The Official Messenger of this city has published a correspondence from Tokyo, stating that the English press of Yokohama has unsuccessfully tried to excite the opinion of the Japanese government and the European colonies against Russia. It adds that the American envoy, Mr. Bingham, was leaving Japan, but it is thought that his successor, Mr. Hubbard, will continue the former's anti-British policy.

One More Sea Serpent.

LONDON, Sept. 2.—Captain Roberts, of the British ship Zeebarg, arrived at Queensborough, N. Y., on the 31st inst., in latitude 29 degrees 35 minutes north, longitude 43 degrees 50 minutes west, he saw a sea serpent six feet long and

seven feet in circumference lying on the surface of a smooth sea, nine feet from the ship's side. It was light pink in color and was observed for fifteen minutes.

Assaulted. DUBLIN, Sept. 2.—John Moriarty, teller of the Hibernian bank, Dublin, has assaulted with £100.00. A warrant is out for his arrest.

Politics and Personalities.

LONDON, Sept. 2.—Three persons were killed and several injured by the fall of a cliff at the village of Dawlish, Devonshire. The Earl of Carnarvon, lord lieutenant of Ireland, threatened with prompt and condign punishment the rioters who recently interfered to prevent evictions at Mullinavat. He says the mob must be taught to respect the law.

Count Kalnoky has returned from Varzin to Vienna. It is learned that Prince Bismarck maintains the conviction that protection alone will save German industries. The German chancellor urges the council of ministers to adopt the strongest protective measures for Austria-Hungary.

The Rev. Mr. Falmage preached at St. Enoch's church, in Belfast, before a congregation numbering forty thousand. He afterward addressed an assemblage composed of about 100,000 persons who could not gain admittance to the church.

El Liberal, of Madrid, writes that an increase of the Spanish navy is imperatively demanded and advocates the raising of money for this purpose by popular subscription. Prominent naval officers concur in the views of El Liberal.

The Russian government has issued a decree making the Greek church the established religion of the Baltic provinces. Protestantism will only be tolerated. Children born of mixed marriages are to be trained in the Greek church. The decree orders the state to excite great discontent among the German settlers.

M. Jules Ferry addressed an audience of 4,000 persons at Bordeaux. He opposed abolition of the religious budget and revision of the constitution, and said he believed that the people could pay the expenses of education. He said that France was respected because she was strong, and that she must have confidence in herself and respect the rights of others.

A Witch Doctor.

ATLANTA, Ga., Sept. 2.—The town of Carle is excited over the death of a respectable colored man named Hiram Walker, aged 45. He was apparently very ill with consumption. His doctors were dismissed and a witch doctor, named N. Cryden, called in. The sorcerer caused every aperture of the sick room, excluding fresh air. After leaving the man alone for some hours he entered the room and after a few moments came out and ran away. Mr. Walker hurried into the room and found the witch doctor had been five minutes. The witch struck some pins in the front door and on the steps, and Mr. Walker told the first person who came up the stairs would be the one that had to be witched her husband. The woman will probably be arrested for murder.

Workmen's Assembly.

ROMA, N. Y., Sept. 2.—The annual congress of the political branch of the workmen's assembly of the state of New York was opened here. Among those present were George Blair, D. D. Root and Joseph Connelly, of New York, and a number of others prominently identified with the labor movement in the state. The convention assembled in the afternoon at 11 o'clock. Chairman George Blair in his opening address reviewed the work of the labor party in the state and the treatment of the measures introduced by its candidates in the legislature by the members of old parties and the governor.

Shot Through the Heart.

NEW YORK, Sept. 2.—Tom Davis, baker of Fitzgerald, the champion pedestrian, was shot and instantly killed in M. Purrell's gambling house, on Broadway and Bond streets, by James B. Johnson, of Colorado City and Aberdeen, Texas. They had quarreled, but over what, is not known. In Davis' hand was found a bundle of bogus bonds. In the table were gambling tools. Johnson was arrested as about leaving the table, and Davis was shot through the heart, the bullet going clean through the body. Johnson says he is a stock speculator.

More Water.

CHARLESTON, S. C., Sept. 2.—The rain was the hardest ever in this section. It flooded streets and cellars and caused not less than one hundred thousand dollars damage. The wind blew thirty-four miles an hour and another cyclone was feared. The loss by last week's storm will reach two million dollars. At least five thousand roofs in the city were damaged. Despite these misfortunes the people are cheerful and repairs are energetically pushed forward. The new cotton crop is coming in and is handled without delay.

Texas Anti-Prohibition.

WACO, TEX., Sept. 2.—The local option election in this McLennan county, has taken place. A heavy vote was polled, and the result is a victory for the prohibitionists. Their majority will reach 1,500. The election attracted much attention throughout the state because of the active part taken in the canvass by Senator Coke and Rodger Q. Mills. Both these men were ardent supporters of the prohibition doctrine on personal liberty grounds.

Ku-Kluxing.

CATTANOOGA, Tenn., Sept. 2.—The Ku-Kluxing in North Georgia, which caused such a sensation at Atlanta, has not yet ended. A body of armed vigilantes broke into the house of a negro named Perry and shot and killed him. The vigilantes are a body of men who have notified three other pro-Klux characters to go. These events cause much excitement.

Good Conscience.

ASBURY PARK, N. J., Sept. 2.—George Curry, in a fit of jealous rage, attempted to kill his sweetheart and shot himself through the head, dying instantly. The girl's name is Susie Westcott. Curry fired one shot at her, but the bullet struck one of her coral-steel and was harmlessly deflected. The suicide is the son of a well-known and prominent resident of Red Bank.

THE RIVERSIDE TOMB.

PILGRIMAGES OF THE PUBLIC TO THE GRAVE OF GENERAL GRANT.

A Hitherto Neglected Spot Which Has Come Into Great Popularity—The Blue-Coated Soldiers Who are Patiently Guarding the Sepulchre.

New York, Sept. 2.—Although it is nearly a month since the remains of Gen. Grant were placed in the tomb on Riverside park the daily pilgrimages to his grave continue, nor does there appear to be any decided falling off in the number of those attracted to the now historical spot. During the past week, although the weather has been rainy, notwithstanding to excursions of any description, thousands of persons have journeyed by elevated roads and cross-town cars to the sepulchre, and it is the opinion of those who are obliged to make their headquarters in the vicinity of the tomb that the daily invasions of curious visitors will continue practically undiminished.

All day long a stiff breeze blew down the river and across the little knoll on which the tomb stands. Dark clouds obscured the sun and the air was very disagreeable and uncomfortable. Wraps and up-turned coats denoted the sightseers' discomfort. While shortly after noon the sun came gallantly out from behind the clouds, it had obscured it during the morning.

The tomb is a small, white, square structure, which the Riverside drive will undoubtedly present during each pleasant afternoon during the approaching autumn. The general tone and character of the tomb is a simple, but dignified, and is proving during the past week. The picnic companies and the lunch-baskets families, who came to the tomb, have been a constant stream of quiet, decorous men and women, while the loud, grating laugh of the vulgar and the noisy crowd of the day are absent. The constant exposure of the inside decorations of the tomb to the air has necessitated a thorough cleaning, which was ordered by the tomb trustees. The withered flowers were removed and the inner walls and casement relieved of a thick coating of dust. The refractions and worthless decorations were immediately appropriated by the guard to the custody of the city.

After the inside of the tomb had been attended to a scaffolding was erected on the outside and a tent was erected. The general effect of the monument is a simple, but dignified, and is proving during the past week. The picnic companies and the lunch-baskets families, who came to the tomb, have been a constant stream of quiet, decorous men and women, while the loud, grating laugh of the vulgar and the noisy crowd of the day are absent.

The colonel was received by Capt. Fessenden and escorted to the tomb. He surveyed the camp quarters and then returned to the island. "How long do you stay there?" was asked of Capt. Fessenden by a reporter. "The 8th of September ends our term of service," was the reply. "We will be relieved by Company C. A. of the 1st Cavalry, and they in turn by Company C. E. of the 10th Cavalry will take charge, and after that some other arrangements will probably be made."

It is estimated that at least five thousand persons visited the tomb. The Golden Rule Lodge of New Haven, Conn., brought over a thousand people, who thronged the grounds for more than an hour. A few young girls with floral decorations were sent by the Martha Episcopal school, of Seventy-ninth street, and spent a few minutes at the tomb, leaving behind several wreaths of flowers. The Grant Memorial association has decided to build a portable house on the grounds. Here photographs of the tomb and outside of the tomb will be sold and proceeds devoted to the monument fund. Subscriptions to the fund will also be received.

The encampment of the regulars is a much of an attraction to the visitors at the tomb itself. The officers' quarters and the hospital are the most interesting features of large share of attention. It is believed by many persons on the day of the funeral that the tomb would have been a very profitable place for vendors of refreshments and other persons of that class, but this has not proved to be the case, and there are a number of deserted "stands" in the neighborhood. Immense crowds have, it is true, visited the burial ground, but the regulars are not so numerous as the hucksters, who have now almost entirely withdrawn from the vicinity.

The idea of an American Pantheon, which has been brought forward recently in connection with the Grant memorial, originated with the late Gen. Will. O. R. biographer of Edgar Allan Poe. His plans were first made known four years ago. Mr. Luther R. Marsh and other well-known public men are now making the Pantheon a national affair. The year 1900 has been fixed upon as the proper time for its completion.

Rhode Island Manufacturers.

PROVIDENCE, R. I., Sept. 2.—A meeting of manufacturers and business men of this

state was held in the Franklin lyceum hall, to consider the object and tendency of the tariff investigation proposed by the secretary of the treasury in his circular letter of July, 1885. Hon. Chas. R. Cutter, of Weymouth, was chosen president, and General Rogers, secretary. Addresses were made by Senators Aldrich and Chase, Hon. H. Metcalf and others.

Mrs. Dosey's Death.

Mrs. Frances Dosey, Sept. 2.—This community has been thrown into a fever of excitement and indignation by the arrest of Robert Dosey and Mrs. Wash Johnson upon the eve of their departure from the state, charged with the murder of Dosey's wife about four weeks ago. Dosey and Mrs. Johnson made their trip to Toledo, Ohio, during which time, as has recently been disclosed, they passed as husband and wife. Shortly after their return Dosey and his wife visited Mrs. Johnson, and while there Dosey's wife was taken suddenly ill and died without a physician being called in. The remains were interred in the city of Toledo, Ohio, after a post-mortem examination. Since the death of Mrs. Dosey her husband and Mrs. Johnson have been making every effort to solve the mystery and make preparations to leave the state, which excited suspicion, and they were arrested, Mrs. Johnson retaining arrest with Dosey. It is stated at the department that the order will be enforced to the letter, and with the full force of the military if necessary.

GENERAL BUTLER is making a determined effort to have the President's order of rejection from the Indian Territory rescinded. The General is himself interested in a large ranch in the Territory, and will make a stand against the issued proclamation, involving the questions of rights of property, power of Indians to make contracts, and authority of Government to interfere. Other cattle men are moving off in compliance with the order.

The Sullivan-McCaffrey fight does not seem yet to be settled, as the referee Tate, who resides at Toledo, Ohio, had an interview with a representative of the latter on the 31st ultimo, the result of which was that telegrams were sent to the state-holder to come there with the original copy of the agreement, and to Sullivan to send a representative. On their arrival, a consultation will be had, the disputed points settled, and the final decision of the referee made and promulgated.

These Ingenious Americans.
The following is from a late French paper: "It is well known that the Americans are a very practical people, even in their religion. One of them has just invented a burglar-proof safe, which, when tampered with, suddenly emits a powerful pair of tongs, or grippers, which seize the malefactor and hold him in a firm embrace. There is nothing extraordinary in all this, but there is something further. Nearly always safes that are likely to be visited by burglars are in buildings unoccupied during the night, and it is only the next morning that the captured robber is carefully released from the trap to be duly imprisoned. This is, of course, true, which the religious inventor desires to utilize. He has, therefore, had prepared by an eloquent preacher a very long and remarkably forcible sermon, in which the rights of property, the disgrace of stealing and the dangers attended on it, both in this world and the next, are set forth in the most touching language. This sermon, stored in a phonograph, is set off at the same moment that the pincers operate, and the homily is rolled out in the ears of the patient. The monotonous nasal tone peculiar to the phonograph renders the illusion perfect; the unfortunate robber believes he hears the voice of the preacher himself, and in the morning when the police arrive they find him thoroughly subdued and repentant."

The Howard Shooting.
PORTLAND, Ore., Sept. 2.—A telegram from Clatsop states that young Howard is still alive, but with not one chance in ten thousand for recovery. He is at Big River Hotel, about fifteen miles from Clatsop, in a tent with a first rate surgeon in attendance. The ball was fired on the right side of the liver, and there is no room for saving him from local poisoning. He, with his father Gen. Howard and a party of young ladies, were camping near Big River. One of the ladies, who is a temporary mental aberration, became so excited to shoot him that the revolver was fired from him. Then he tried to jump into the falls but was held back. After his return to camp he secured another revolver and shot at the same place, but the cause of the death was that a young lady to whom he was betrothed, and a number of the party, quarreled with him and the engagement was broken off. Mrs. Gen. Howard, who was visiting her daughter at Van Couver, was telegraphed for and left for Yellowstone park.

Telegraphers.
New York, Sept. 2.—R. T. Tallavall, editor of the Telegrapher Advocate, says that the Galveston operators were rather premature in striking.
